Without making it too complicated, Hurricane was a rather popular forumer who caused a few problems at the end of summer and beginning of fall. It was claimed she had died in a car accident in June, leaving her sister, Maelstrom, to run her account. It was later revealed that Hurricane was in fact very much alive and was allegedly receiving some sort of medical care in Wisconsin, a large move considering she and her sister supposedly lived in Ukraine. After this was revealed, the Hurricane/Maelstrom account went inactive. Another forumer by the name of Hidden Treeline came about, and through a series of suspicious activity and extensive questioning, revealed that they were in fact also Hurricane, that Maelstrom never existed and was also Hurricane, and that they were a compulsive liar and could not stop. Soon after, Hidden Treeline also became inactive, and we have not heard from them since.

That's all I remember off the top of my head and I may have gotten some things wrong, feel free to correct me

To clarify, as far as our knowledge goes, there was no car accident and the care Hurricane was allegedly receiving in Wisconsin was for her osteogenesis imperfecta and somewhat recent head injury
